12 801 765	9:88-18	Nov 02	12 801 767	

E980A429

F980A167

Washing advice: See the label sewn into the seat upholstery.

**WARNING**

Read the instructions thoroughly before use.

Important

For child seat fitting and usage information, refer to its installation instructions.

- 1 Guide up the washers in the end of the child seat lap belt (A) through the frame of the seat. If the shoulder straps are not in their lowest position they must be moved into it by being drawn out through the back of the seat and back through the lowest holes.
- 2 Guide the straps with the washers through the holes in the back of the baby insert, down through the seat cushion of the child seat and out underneath the seat frame.

**WARNING**

Check that the washers lock underneath the seat and make sure that the belts are not twisted.

The height of the child's sitting position can be adjusted by means of removing or fitting the seat cushion in the baby insert.
